**touchguard**<sup>Ltd</sup>

HIGH-TECH SURFACE PROTECTION

**touchguard is a new and effective surface coating technology that virtually eliminates the risk of person-to-person transfer of potentially fatal infections such as MRSA and E.coli through shared handling of paper, card or board products.**

Specify **touchguard** anti-bacterial surface coating for all your printed material and kill up to 99.97%\* of the bugs that could bring your business down.

If you operate a fast food outlet, tourist attraction, cruise ship or are any other kind of retailer whose customers handle printed material you provide, **touchguard** can help you avoid the accidental spread of 'touch'-transferred infections - which could also threaten the health of your business!

**touchguard** is applied during print finishing as a component of a specially formulated varnish which can be oil- or water-based. As such it adds only fractions of pence per copy, keeping your print costs as low as possible whilst potentially saving you thousands of pounds in sickness compensation and adverse media attention.

**touchguard** has been independently laboratory tested to required specifications and has been found to ensure better than the 95% kill rate required under JIS Z2801/ISO22196:2007 for MRSA and E.coli. Results showed that when applied to printed paper, card or board materials,

# touchguard<sup>Ltd</sup>

*Be safe don't pass it on*

**touchguard** killed 99.97% of MRSA and 95.82% of E.coli bacteria resulting from human transfer of these infections. Detailed results of laboratory tests are available on request.

**touchguard** in no way replaces the need for careful hand-washing and good personal hygiene in health-sensitive environments, but is an innovative new tool in the fight against the spread of touch-transferred infections.

To find out more about **touchguard** anti-bacterial print surface coating, please e-mail us at [julian@touchguard.co.uk](mailto:julian@touchguard.co.uk) or telephone **07540 619 169** and we will be pleased to discuss and advise on your particular print applications and infection control requirements. (*Patent Pending (GB1007853.3)*).
